

# SILENT RIDER

***Wham!***  
***A car crash can happen  
in an instant!***

As frightening as that may be,  
it can be just as distressing to be  
blamed for an accident that isn't  
your fault.

That's why a dash cam can  
be a critical aid when the  
unexpected happens.

**SILENT RIDER**  
can be your "eye witness"

**Silent Rider** provides clear video evidence. It acts as a deterrent to crime, prevents insurance fraud and can even be used to dispute an unfair driving ticket.

**Silent Rider** is easy to install, secure & safe to use while driving.

**Silent Rider** is smart. Even if you choose not to record 24/7, this dash cam's G-sensor can automatically begin recording when it detects sudden changes in acceleration or direction.

**Silent Rider** can record high definition video day or night with its infrared LED and built-in mic.
